Makerspace Workshop

Presented by Steven Payne from Standout Education

In this one day hands-on workshop learn how to set up an engaging “makerspace” in your school that fosters creativity, problem-solving, collaboration, and technical skills. Consider how electronics, coding and robotics activities can be integrated to support learning across the curriculum. You will learn to invent and program with a range of electronic kits. Working in small groups, you will design amazing creations, build them with recycled materials and craft supplies and bring them to life with programming!

North of the River

When: Friday 15th June 2018
Time: 8.30am - 3.30pm
Where: St Stephen’s School, Duncraig
